memorandum

DATE DEC 03 1991

REPLY TO ERD BKT 10520

SUBJECT NEPA/CERCLA Integration Strategy Request

TO J. M. Kersh, Associate General Manager
Environmental Restoration and Waste Management
EG&G Rocky Flats Inc

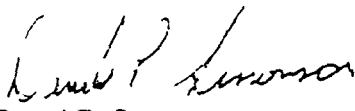

This memorandum serves to follow up the May 1, 1991 DOE memorandum ERD BKT 3216 to EG&G regarding follow up for NEPA/CERCLA integration meeting between DOE/RFO/ERD and EG&G's NEPA Division. The meeting was held on April 23, 1991. We previously requested that a guidance document be prepared for NEPA/CERCLA integration at the RFP.

We request that the EG&G's NEPA/CERCLA integration strategy be formally transmitted to DOE/RFO/ERD by December 16, 1991.

We currently require this document outlining the NEPA/CERCLA integration strategy at the RFP for the following reasons:

- 1) EG&G's Remediation Programs Division has initiated work on the Corrective Measures Study/Feasibility Study for Operable Unit No. 1. The draft version is due to EPA and CDH by March 31, 1992. Thus, the time is ripe for integrating NEPA and CERCLA as required by DOE Order 5400.4.
- 2) We have recently received a request from DOE Headquarters for the NEPA/CERCLA integration strategy for the RFP.

All questions or concerns regarding this request should be directed to Bruce Thatcher of my staff at 966-332.

David P. Simonson
Assistant Manager
Environmental Management
